

## Cyber Security and Social Engineering: Protecting Yourself Online

"One of the reasons that bad actors view children's identities as a gold mine is that they can exploit that information for more than a decade before it's recognized when they go to apply for credit for the first time."

https://searchsecurity.techtarget.com/news/252489363/Cyber-attacks,%20-on-schools-increasing-amid-remote-learning-shift,21st Sep 2020

# Types of Social Engineering

- Phishing
- SMishing (SMS)
- Vishing (Voice)
- Qishing (QR Codes)
- Spear-phishing / Whaling

## Signs of a Social Engineering Attack

Unusually urgent or threatening language in an email or message.

Requesting personal information such as passwords or financial details.

Offering a prize or reward in exchange for personal information.

Unexpected, even when from a known individual (friend, relative, etc)
